## 7.1.4. MoU with Municipal corporation

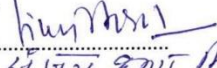

### Memorandum Of Understanding

रानी दुर्गावती विश्वविद्यालय जबलपुर एवं नगर पालिक निगम जबलपुर (म.प्र.) के मध्य निम्नलिखित शर्तों के साथ MoU निष्पादित किया जाता है :-

1. विश्वविद्यालय में स्थित सरकारी आवासों से निकलने वाला अवशिष्ट पदार्थ (सूखा एवं गीला) विश्वविद्यालय के कर्मचारियों द्वारा एक स्थान पर एकत्रित किया जावेगा।
2. उक्त कार्य के लिये विश्वविद्यालय स्वयं अपने संसाधन से ठोस अपशिष्ट का कठौदा स्थित वेस्ट टू एनर्जी प्लांट तक परिवहन करेंगे।
3. उक्त कार्य के लिये नगर निगम जबलपुर द्वारा विश्वविद्यालय को किसी भी प्रकार का शुल्क/राशि का भुगतान नहीं किया जावेगा।
4. उपरोक्त विषय में किसी प्रकार का विवाद होने की स्थिति में दोनों पक्ष आपस में विचार विमर्श कर विवाद का हल तलाशेंगे।
5. विचार विमर्श से विवाद का हल नहीं होने की स्थिति में दोनों पक्षों में से कोई भी पक्ष एक महीने की समय सीमा का नोटिस जारी कर MoU से अलग हो सकता है।

**Letter of Acceptance for Water Harvesting**

RANI DURGAVATI VISHWA VIDYALAYA, JABALPUR (M.P.)

Ref. No./Eng./2022/ 158

Jabalpur Dated: 25/08/

LETTER OF ACCEPTANCE (LOA)

To,

M/S Christopher Saville,  
H.No.52 Saket Nagar, Ranjhi,  
Jabalpur (M.P.),

Sub: Work of Water Harvesting of Various Department at R.D.V.V. JBP. P.A.C.  
25.90 lac

Agreement No. UECA/2022-2023/ 0204/50 Dated/ 19/09/2022

Dear Sir,

Your bid for the work mentioned above has been accepted on behalf of the Governor of Madhya Pradesh at your bided percentage 24.24% below or at par the bill of quantities and item wise rates there in.

You are requested to submit within 15 (fifteen) days from the date of issue of this

- (a) The performance guarantee on contract amount Rs. 19,62,184.00 x 5% = 98,109.00 (Ninety eight thousand one hundred nine only) and additional security on contract amount 19,62,184.00 x 9.24% = 1,81,306.00 (One lac eighty-one thousand three hundred six only). The performance security shall be in the shape of term deposit receipt/bank guarantee of any nationalized/schedule commercial bank valid up to three month after the expiry of defects liability period.

Sign the contract agreement.

15- stamp duty amounting Rs 4,905/- (Four thousand nine hundred five Only)

Please note that the time allowed for carrying out the work as entered in the bid is 09 Months shall be reckoned for the date of signing the contract agreement. Signing the contract agreement shall be reckoned as intimation to commencement of work and no separate letter for commencement of work is required. Therefore, after signing of the agreement, you are directed to contact the engineer in charge for taking the possession of site and necessary instruction to start the work.

## Water Management System of R.D. University, Jabalpur

### Water Management System of University Campus

Water Consumption in the campus is managed by six bores of more than 300 feet depth. Thus, water supply on the campus is managed through own resources i.e. underground bore and tanks. Overall water consumption details are as under: Details Consumption in KL/Month 1. University office and different departments inclusive of canteen 7300 KL/Month, 2. Different hostel blocks 1205 KL/Month . 3. Staff quarters & remaining zones 1615 KL/Month. Two water samples each from six bore wells of 20 hp each, supplying water to the Hostels, Departments and Staff Quarters were taken for various analyses. Quality of Water with reference to parameters pH, TDS, Total Hardness, COD, Chlorides, Sulphates etc. has been reported in Table-I for different water samples. There is a natural flow of stream which is utilized for various purposes. Waste water generated (sewage) is disposed of through septic tanks and soak pits.

The campus is having a pond in "Swarn Jayanti Park" for water conservation. Critical Evaluation of Water Management System: Water testing: The quality of water is typically determined by monitoring microbial presence, especially fecal coli form bacteria and is also governed by various physicochemical properties of water. Physico-chemical parameter describes the physical and chemical status of water body and change in these parameters may affect the existence and diversity of bacterial species in the aquatic environment. Meteorological events and population are few of the external factors which affect Physico-chemical parameters such as temperature, pH, alkalinity, nitrate, phosphate, chloride, hardness of water. These parameters have major influence on biochemical reactions that occur within the water. Sudden changes in these parameters may be indicative of changing conditions of water. Internal factors on the other hand, include events, which occur between and within bacterial populations in the water body. As a whole, water management system established by the Rani Durgavati Vishwavidyalaya appears to be adequate and sound. Reverse Osmosis Purifying System has been installed in few Teaching Departments.

The quality of treated water is well within the norms prescribed by the Central and State Pollution Control Boards. Since the establishment being a University & not a chemical manufacturing unit; waste water generated in the campus needs no effluent treatment using ETP. However, there is full scope for establishment for sewage treatment plant (STP) and such treated water can be utilized / reused for the development of green belt in the University campus. Thus, fresh water requirements can be curtailed. Further, there is good scope for rain water harvesting and bore well recharging which University has already started to establish.
