Details of the Software procured for providing the assistance

#### Free and Open Computer Software

Screen reader is an assistive software programme which helps the visually disabled or the blind to work with the computer. NVDA & JAWS software is free, open source software. It has been installed in the computers at computer lab, Library, Sports Department etc. to help the visually challenged students in learning. For more reading and writing practices they are taken to Govt. Higher Secondary School for Blind, Near Bhedaghat Bypass, Jabalpur, MP where the staff guides them for the same.
